PROFILE

Hi i am self taught software developer and all my set of expertise are gained from reading multiple programming books and taking courses from sites such as Udemy, FreeCodeCamp and thereafter implementing it in projects. All set of skills i have developed during approximately 3 years of programming, solving problems on my own have made me a fast learner that can acquire new knowledge quickly and an efficient problem solver with a sharp discipline. As person i am optimistic, easygoing, curious in nature especially about programming and social, thereby a perfect team player. If i am not fit for this specific opportunity, i am flexible and willing to take other position that fit my qualifications.

COURSES

React Native - The Practical Guide at Udemy

By Maximilian Schwarzmuller

React - The Complete Guide at Udemy

By Maximilian Schwarzmuller

JavaScript Algorithms and Data Structures at FreeCodeCamp

Advanced CSS and Sass at Udemy

By Jonas Schemdtmann
